HSIP NAVTEQ State Release

Overview

The Homeland Security Infrastructure Program (HSIP) is a National Geospatial-Intelligence Agency (NGA) led program that provides mission-critical geospatial information to Homeland Security and Homeland Defense (HLS/HD) communities, to include those supporting National Preparedness – Prevention, Protection, Mitigation, Response and Recovery (NP-PPMR&R), through the HSIP Gold and HSIP Freedom databases. As part of an ongoing objective to make HSIP datasets available to all levels of government, the NGA expanded its agreement with NAVTEQ to permit State government entities to use NAVTEQ Transportation and Points of Interest (POI) geospatial data in support of HLS/HD efforts. The HSIP NAVTEQ State Release Database is disseminated to State Fusion Centers, State GIS Coordinators, State Emergency Operations Centers (EOCs) , and State Emergency Management Coordinators.

Purpose

To provide authorized State agencies essential foundation-level infrastructure geospatial data for use during steady-state operations and to help those entities prepare for, prevent, and respond to domestic emergencies, terrorism, or natural disasters.

NOTICE OF USE CONTRACTOR NAME: NAVTEQ. This data is a commercial item as defined in FAR 2.101 and is subject to the rights and restrictions set forth in the Enterprise License under which this data was provided. (c) NAVTEQ-- All rights reserved.
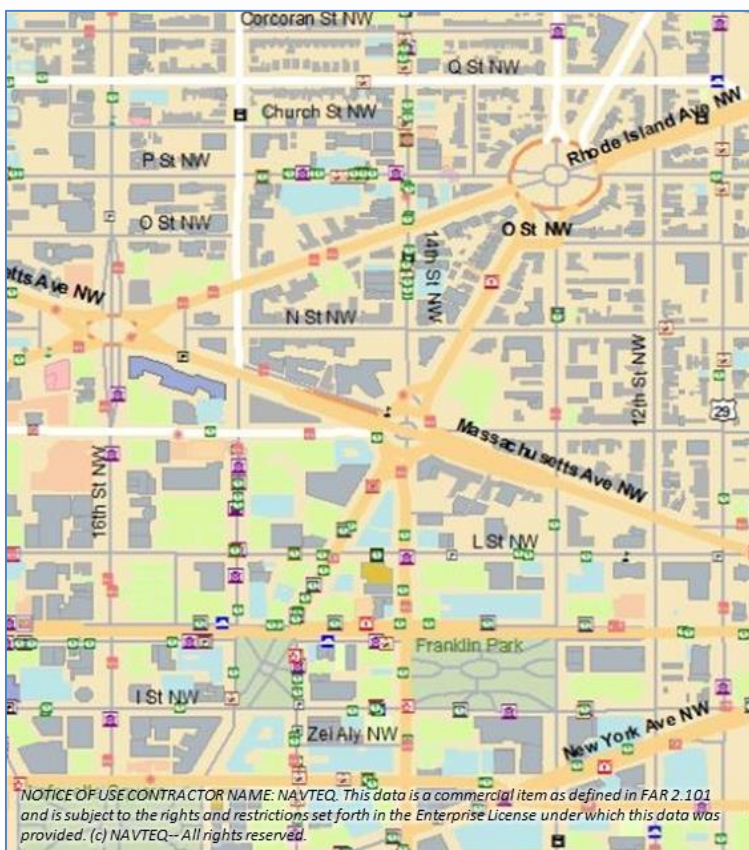

Features and Benefits

Use — GIS-ready Transportation and Points of Interest (POI) data for homeland security, and emergency planning, response and recovery missions.

Coverage Areas — All of North America including the United States, Canada, Mexico, Puerto Rico, the US Virgin Islands, the Bahamas, and the Cayman Islands.

Metadata — Federal Geographic Data Committee (FGDC) compliant metadata as well as a comprehensive Data Dictionary are included.

Availability — Authorized for dissemination to State Fusion Centers, State GIS Coordinators, State EOCs, and State Emergency Management Coordinators.

Distribution — To submit your request for the HSIP NAVTEQ State Release DVD, log on to the HIFLD web site (www.hifldwg.org), select the "HSIP" tab across the top, "New Request", then "Submit New HSIP NAVTEQ State Release 2013 Data Use Agreement" to begin the online process.
